Professional Summary

Creative Web Designer with 5 years of experience at Exegesis InfoTech India Pvt. Ltd., specializing in responsive, user-friendly websites and modern UI/UX. Skilled in front-end technologies and design tools, with a focus on visually appealing, high-performance digital experiences.

Work experience

Exegesis InfoTech India Pvt. Ltd.

Web Designer

2021 - Present

- Developed a web application for the insurance domain with responsive design, form validations, and policy management features, ensuring a secure and user-friendly experience.
- Worked on **Prudent, AON, Marsh and Lockton** projects within defined timelines, successfully meeting client expectations; designed and developed **Flexi Enrollment** interfaces across all projects, ensuring scalability, consistency, and user-friendly experiences, with all projects belonging to the insurance domain.
- Successfully delivered **7 web projects**, including 2 website redesigns and **2 mobile app redesigns**, along with designing **3 mobile app UI/UX** projects within timelines. Also gained hands-on experience working with **CMS (Content Management Systems)**, ensuring efficient and scalable solutions.
- Designed and developed responsive, mobile-first web interfaces using **HTML, CSS, JavaScript, React, and Bootstrap**, and created high-fidelity UI/UX designs in **Figma, Adobe XD, Adobe Illustrator and Adobe Photoshop**; ensuring pixel-perfect, high-performance, and accessible user experiences.
- Designed **Mobile App UI** interfaces for projects using Figma and Adobe XD, aligned with project timelines and requirements.

Achievements

- Delivered projects within deadlines
- Built responsive, cross-browser websites.
- Developed projects aligned with client expectations
